

## Time to choose a school

Your child will soon be offered a place in a municipal pre-school class. When you have received the information, you must accept or decline the place, or choose to apply to another school for your child.

It is important that you reply so that the school knows how many children will be starting in the new class this autumn.

### This is what you do

- Go to [eskilstuna.se/skolval](http://eskilstuna.se/skolval), where you will find our e-service for making your choice of school. This will advise you how to log in and make your choice. You use the e-service to accept or decline the place offered, or else select “find another school”. If you decline the offer, your child will not start in a pre-school class.
- If you have applied for and been offered a place for your child at a free school, you must log into the e-service, select “find another school” and then choose another school at elementary school level.
- If you want your child to have a place at an after-school centre, you can choose this in connection with choosing your school on the e-service.
- If your child has two legal guardians, both must log in and make the choice.
- Are you unable to use the e-service? Email [skolval@eskilstuna.se](mailto:skolval@eskilstuna.se) or phone 016-710 10 00, option 2. Then select the option **choose school**. You can also visit Eskilstuna direkt at Alva Myrdals gata 5.

### Important dates

- 1 November-16 December: choice of school for pre-school class – year group 6
- November-December: open house at all municipal elementary schools. You can find the dates of open house events at [eskilstuna.se/skolval](http://eskilstuna.se/skolval).
- Spring term 2017: notification of place at a school

### What is pre-school class?

Pre-school class is a voluntary type of education which is free of charge, and your child will be offered a place at a school near where he or she lives. The purpose of pre-school class is to prepare six-year-olds for starting school in the coming academic year.

### Welcome to Eskilstuna Municipality’s elementary schools!
