

# NATURAL SCIENCE

At S:t Eskils Gymnasium we teach the Natural Sciences program in English. With us you will follow the Swedish Naturvetenskapsprogram, but everything is done in English. This has allowed many of our excellent pupils to study abroad once the program is finished.

## OUR AIMS

- Prepare you for language proficiency tests to allow you to study abroad
- Increase your understanding of Biology, Chemistry, Physics and Mathematics
- Engage your passion with laboratory investigations, field trips, foreign exchanges and theoretical study
- Help you to understand global issues such as climate change, the global water crisis, energy generation and human health
- Give you the tools to have a great career in scientific research, medicine or engineering.

The fantastic teachers on the Natural Sciences program look forward to helping you to reach your future career goals.

Naturvetenskapsprogrammet med undervisningspråk engelska
